Hi Professor Farley,

I just wanted to take the time to personally thank you for all you did for myself and all the other students this semester.

I've never had a professor, or teacher in all my years of education more dedicated to his students and their successes than you have been. Even in the face of such adversity, being the coronavirus, you took the time to record your lectures without cutting corners or providing any less invaluable information.

The amount of knowledge you have is truly inspirational and I can see why you have such a strong passion for teaching.

I have a strong passion for learning and the teaching you have given everyone goes far beyond the scope of Business Law.

I also want to add that I specifically appreciated your very detailed family's story coming over from Ireland. It was so inspiring that I encouraged my mother on Mother's Day to watch it. She was moved to hear the number of obstacles your grandfather and his family overcame after experiencing such success and then hardships and then again success. It is truly motivating to hear a story like yours in difficult and uncertain times.

My time at UAlbany is nearing an end as I only have a few classes left in my undergraduate studies and I will certainly miss learning from great lectures and Professors like yourself.

Thanks for everything,

Joe Dollard

Hello Professor Farley,

I just wanted to reach out to you and let you know how much I enjoyed your teaching and appreciated your dedication to us this semester. I felt particularly strongly about reaching out because I see a lot of my late grandfather in your teaching style. My grandfather passed away years ago, and retired from teaching years before that. However, when he passed away fairly young a few years ago, a few of his students reached out to my family and told us how special and appreciated the connection he maintained with his students was. Some even still reach out to this day and share stories about my grandfather and how he made them feel when they were his student. I always wished that these feelings could have been shared more with my grandfather when he was still here, so I just wanted to let you know that I truly appreciated your support this semester. Although I know you have many students whose names and faces may all blur together at some point, I appreciate the way you made us each feel important as an individual student.

Thanks,

Victoria Malone

Hi Professor,

Just wanted to say I really enjoyed being in your class for half of a semester. I'm graduating and moving on but I am extremely happy that I got to spend time in your classroom. Thank you for your time and I wish you the best of health moving forward.

All the best
Griffin Dahn

Good evening Professor Farley,

I just completed the final exam; I wanted to take the time to thank you for going out of your way to ensure the comfort of your students through this process, and for making the rest of the semester engaging, informative, and fun.

Thanks for everything,

TJ Kuznia

Hi Professor Farley,

I didn't really have the opportunity to interact with you because of the virus however I just wanted to say thank you. Having this be my last semester of college and having all this happen is never easy and I just wanted to express my gratitude to you for being such a generous guy. I hope to speak with you again and the future and let you know that having you as a professor has been awesome. Thank you for being a great guy but also one that cares about us. I wish you and your family health and safety as we proceed through these unprecedented times. You the man.

Best,

Joey Haas

Robert,

I hope all is well and I hope you and your family yeah been safe and healthy during this time.

I want to let you know I appreciate you as a professor and more importantly as a person, despite our semester being cut short by the unforeseen and unfortunate events of COVID-19, you have my professor twice and it has been an absolute pleasure to be a student of yours. You are one of the only genuine and understanding professors I have. You make it enjoyable to learn law, as well as applicable, I am confident I can apply all that I have learned from you elsewhere. I really cannot thank you enough.

Again, thank you for everything. God bless you!

Warmest Regards,

Sierra Chalmers

It makes me have hope that at least one professor is understanding and that's you.

Your kindness can really go a long way in life and it has for me.

Thank you so much for being one the few that actually understand what's going on and how you handled this pandemic with your students is above and beyond.

I thank you professor from the bottom of my heart. God bless you and your family and stay safe!

With love,
Gabriel Quesquen

Dear Professor,

I just wanted to take time to say thank you so much for always sending positive words during these tough times, it means a lot.

You can really tell how much passion and love you have for your students and profession and it is really inspiring!

Again, thank you for being a great professor and I hope that you are staying safe and healthy!

I'm sad I did not get to finish the year in the lecture hall but I know that I am still learning really important things from home and from the first half of the semester.

Have a great, healthy day!
Jillian Brennie
